

UFlex gears up to supply paper straws by Nov as single use plastic ban kicks in

Packaging major UFlex Ltd is intensifying efforts to start supplying locally-produced paper straws by around October-November with the ban on plastic straws coming into effect from this month, according to a senior company official. The company, which has earmarked an initial investment of around Rs 100 crore to produce U-shaped paper straws at its packaging plant at Sanand in Gujarat, has already ordered necessary equipment from its suppliers.
