

UFLEXO - CI FLEXOGRAPHIC PRINTING MACHINES

UFLEXO ELISA | 8/10 COLOURS | GEARLESS

MODERN CONCEPT TO ACHIEVE EFFICIENCY OF PRINTING PROCESS

- Printing stations chromium plated.
- Easy cleaning and maintenance operations.
- Real solid and stable printing stations designed for high speed production.

INKING - Accurate inking control system into all circuits to avoid pressure variation.

- **Automatic Wash-up Solution** : Totally integrated with inking system and controlled by independent PLC interfaced with machine program.
- Automatic station sequence release to allow plate and anilox fast change.

DOCTOR BLADES - A real control of the chamber to prevent ink leakage.

MAIN FEATURES :

- Automatic Sleeve & Anilox removal system.
- Direct drive to CI Drum and printing carrier to improve accuracy.
- CI Drum (Italy).
- Advance electronic control.
- Turret at Unwind & Rewind.
- Specially designed chamber doctor blade.

UFLEXO GEARLESS TECHNOLOGY

Best Mechanics & Electronics Combined Together

TECHNICAL FEATURES	UFLEXO ELISA	UFLEXO VALLE
No. of Printing Stations	6 - 10 Nos	6 - 10 Nos
Printing Width	800 / 1400 mm	800 / 1400 mm
Printing Repeat	380 - 800 / 1200 mm	380 - 800 / 1200 mm
Printing Speed	400 mpm	300 mpm

DESCRIPTION AND SPECIFICATIONS OF MACHINE MENTIONED IN THIS BROCHURE ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE.
