

UFLEX SOLVENTLESS STANDARD-'S' LAMINATOR

(SPEED: 350 Mtr/min.)
(Web Width: 1020/1320 mm)

Dosing, mixing and dispensing unit

Description and specifications of machine mentioned in this brochure are subject to change without prior notice.

UFLEX Solventless Standard-'S' Laminator with digital AC Vector grade motors/drive for lamination of two different substrates.

Features include:

- ❖ Compact lamination machine
- ❖ Designed to fit in less space
- ❖ In-built panel
- ❖ Energy efficient
- ❖ Ultrasonic edge guide system
- ❖ Taper tension control mechanism
- ❖ Thermoregulation system
- ❖ Vapour absorption system (for carcinogenic fumes)

UFLEX SOLVENTLESS SUPER LAMINATOR

(SPEED: 450 Mtr/min.)

(Web Width: 1020/1320 mm)

Dozing, mixing and dispensing unit

UFLEX Solventless Super, Heavy Duty Laminator with digital AC vector grade motors/drive for lamination of two different substrates.

Features include:

- ❖ Sturdy Structure
- ❖ Excellent Tension Control arrangement through dancer
- ❖ Fully servo driven machine
- ❖ 3 roll lamination NIP arrangement
- ❖ New generation operating software for easy machine operation
- ❖ Dedicated after sales service
- ❖ Taper tension control mechanism
- ❖ Thermo regulation system
- ❖ Vapour absorption system (for cariogenic fumes)
