

# UFLEX SLITTING MACHINE MODEL - USLIT-1300

## Servo Driven Slitter Rewinder

Differential Winding Technology

- ❖ Isolated unwind unit with **floor pick up facility**.
  - ❖ Unwind tension control using pneumatic brakes.
  - ❖ Ultrasonic sensor for **accurate diameter sensing**.
  - ❖ Differential Shaft on both Rewinders for **easy setting**.
  - ❖ Intuitive touch screen panel for **easy & user friendly operation** with excellent diagnostic facility.
  - ❖ **Precise** Line Guide system.
  - ❖ Provision for **automatic unloading** for rewind rolls.
  - ❖ Laser Light for core positioning at rewinder.
  - ❖ Trim removal arrangement etc.
- .. and many more additional features.

# UFLEX SLITTING MACHINE MODEL - ECO-SLIT-450

## Servo Driven Slitter Rewinder

Differential Winding Technology

- ❖ Speed of **450 Mtr. Per Min.**
- ❖ Differential Shaft on both Re winders up & down
- ❖ Unwind with Air expandable.
- ❖ Asynchronous motor with AC Vector Grade Digital Drives for Pull unit and Rewinders.
- ❖ Compact Web path and easy Web Threading.
- ❖ Ultrasonic sensor for **accurate Diameter sensing** at both un winder & Re winder.
- ❖ Provision of Touch panel for **easy & user friendly operation** with excellent diagnostic facility / Alarm handling.
- ❖ Laser Light for core positioning at rewinder (Optional).
- ❖ **Precise** Line Guide system.
- ❖ Auto tension Control System.
- ❖ Trim removal arrangement etc.. and many more features.

The Machine has been designed to deliver optimum performance and productivity.

With the spirit of innovation, Uflex as always, has been forging ahead to bring in novel Solutions .
